

PP FLUTE BOARD | PE - STRETCH FILM | PVC FOAM BOARD

#### • Company's Journey

With years of experience in the international trading industry, we have established ourselves as a reliable and trusted supplier of high-quality PP flute board, PP profile hollow sheets, and PE stretch film. Our journey began with a passion for providing innovative packaging solutions to businesses around the world.

#### • Purpose and Goals

Our purpose is to offer top-notch packaging materials that are not only durable cost-effective but also environmentally friendly. We strive to exceed our customers' expectations providing them with products that meet their specific needs and requirements. Our goal is to make a positive Impact on the packaging industry by offering sustainable and innovative solutions.

#### • Introduction to the Team

At our company, we have a team of dedicated professionals who are experts in the international trading sector. From product sourcing to logistics and customer service, our team works tirelessly to ensure that our customers receive the best quality products and services. With a commitment to excellence, our team is always ready to assist you with any inquiries or requests.

#### • Offerings

We specialize in providing PP flute board, PP profile hollow sheets, and PE stretch film that are perfect for packaging a wide range of industrial and consumer goods. Our PP flute board is available in eye-catching colors and shades, with a printable and matte or glossy finish. Its reusable nature, along with its superior strength and stiffness, makes it a cost-effective and eco-friendly choice for packaging needs. Our products are tough, lightweight, waterproof, and resistant to chemicals and heat, making them ideal for various applications in different industries.

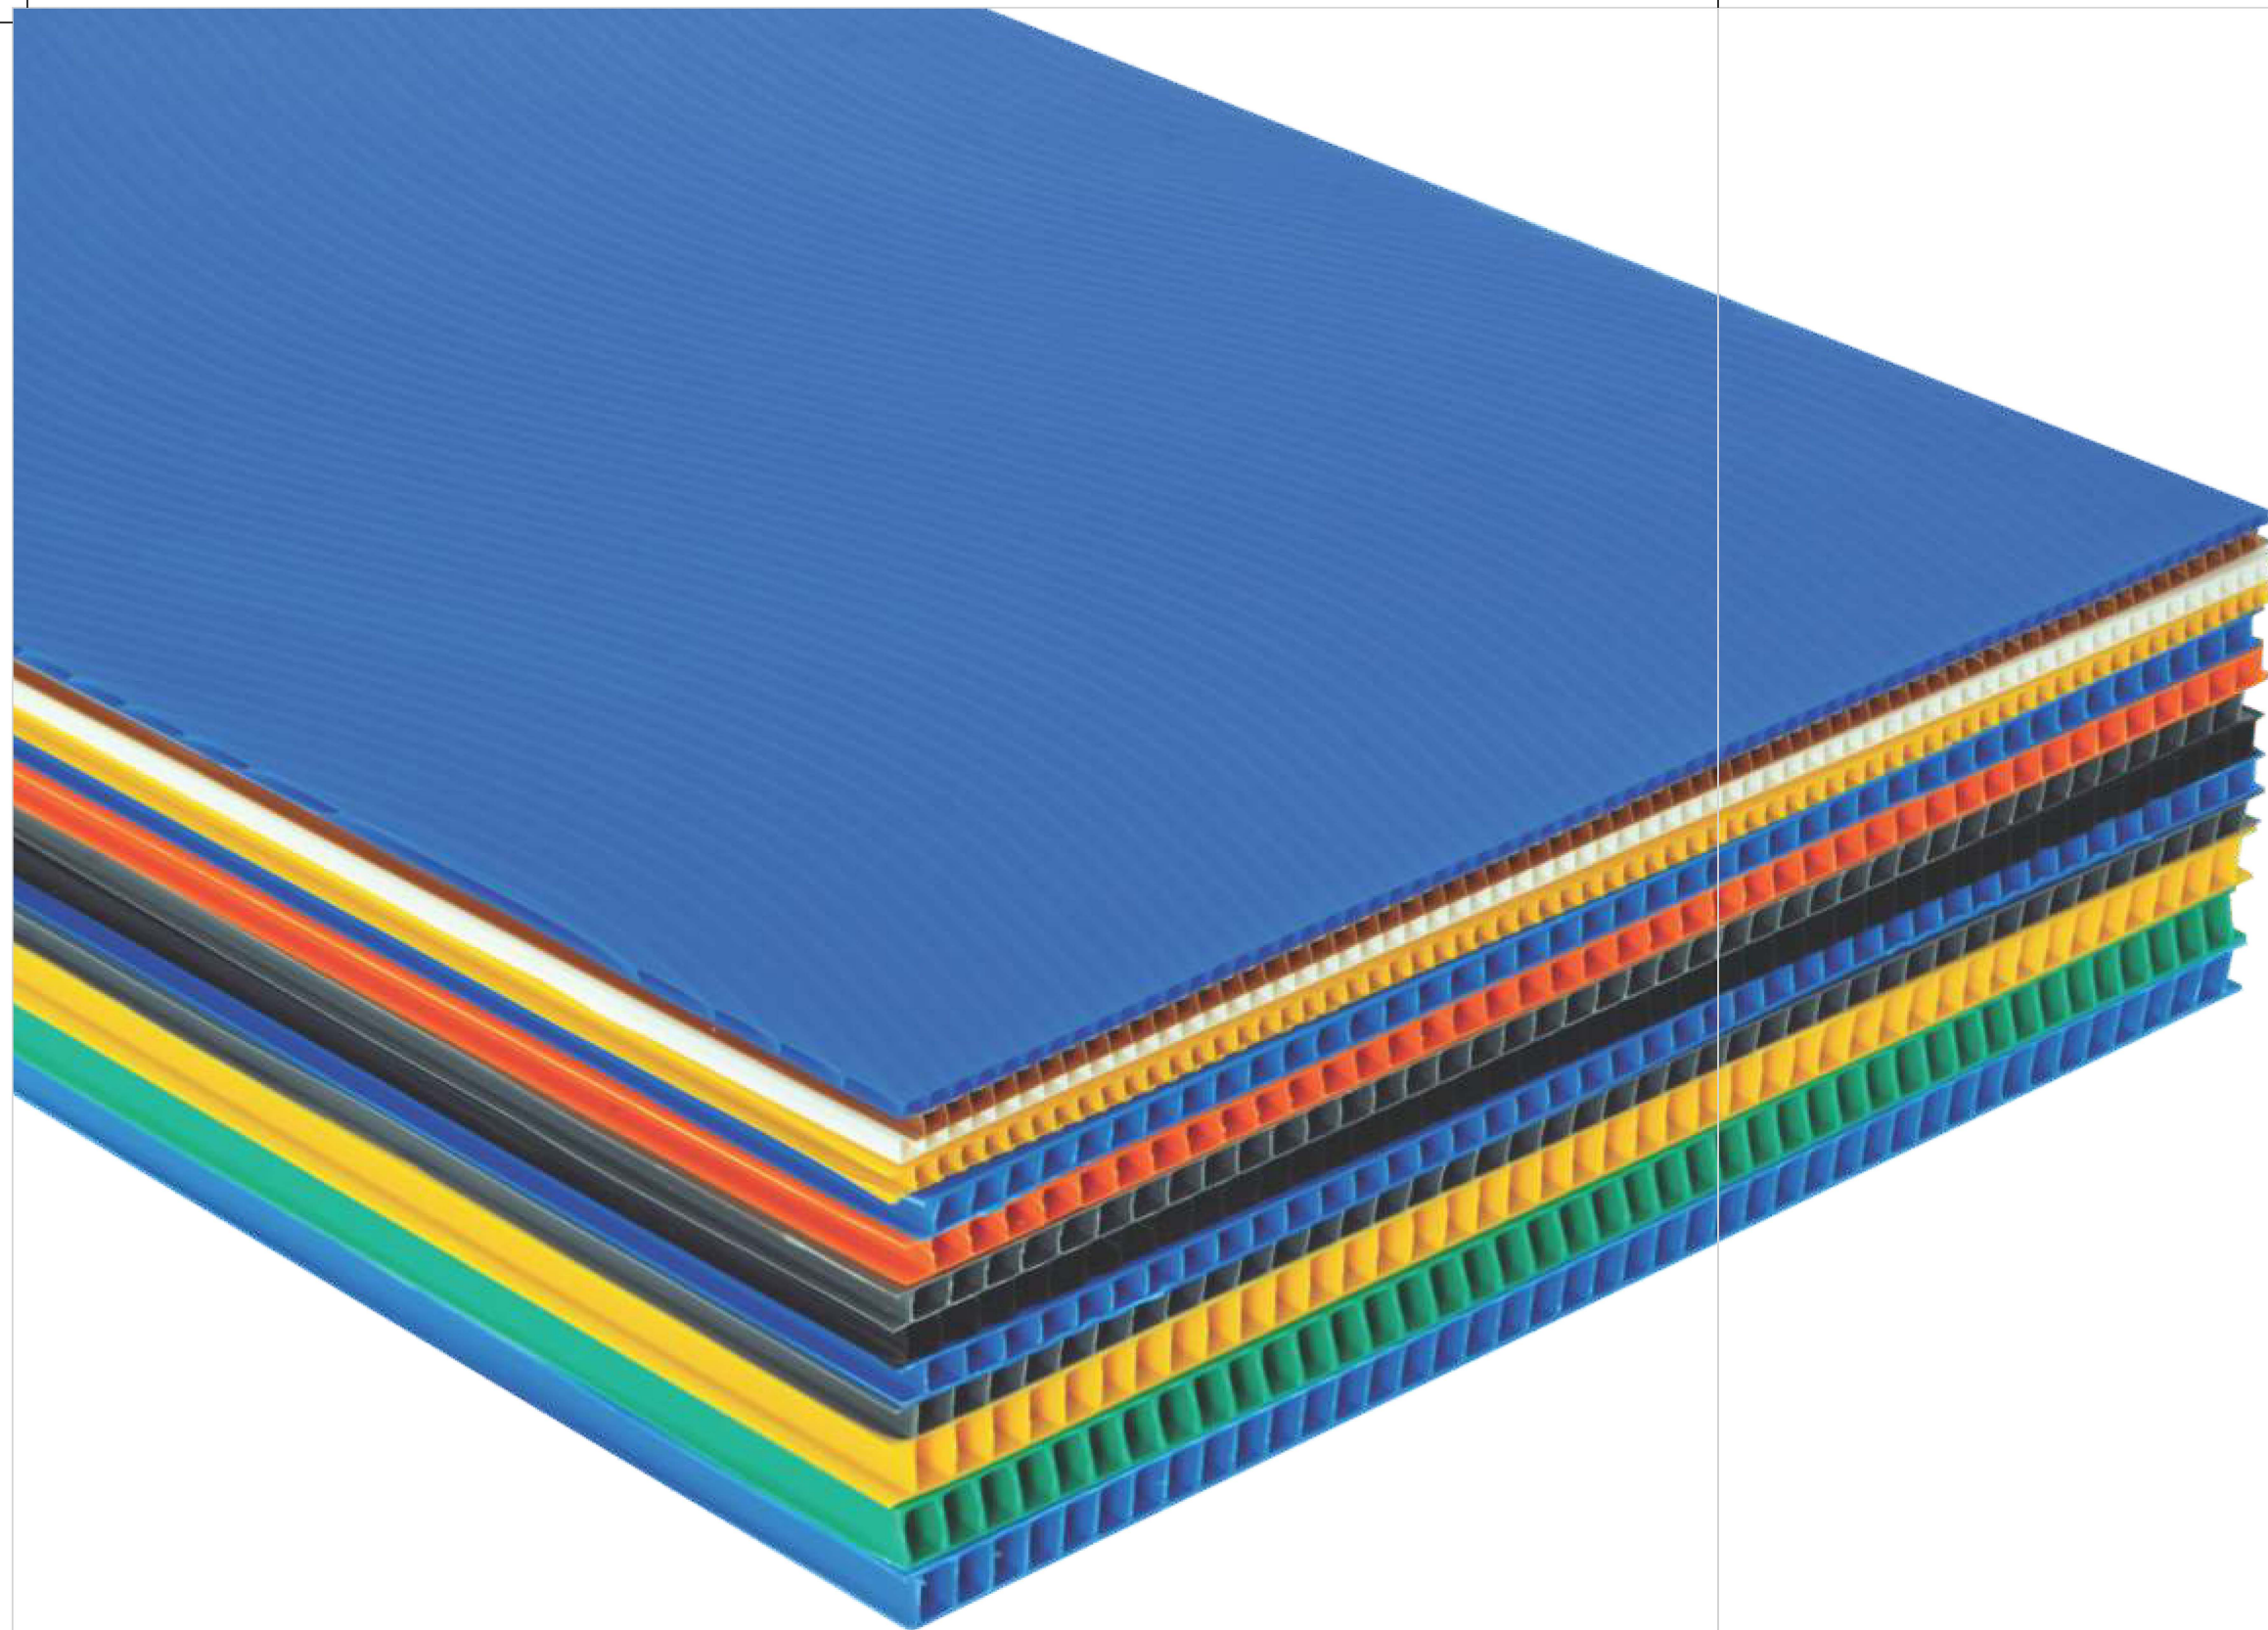

#### • Customer Opinions

"Our company has been using PP flute board from this international trading company for several years now, and we are extremely satisfied with the quality and performance of their products. Their team is always responsive and professional, and we highly recommend their services to other businesses looking for reliable packaging solutions." - Satisfied Customer

#### • Achievements

Over the years, we have built a reputation for delivering excellent products and services to our customers. Our dedication to quality, innovation, and sustainability has earned us recognition in the international trading market. We take pride in our achievements and look forward to continued success in the future.

## PP FLUTE BOARD

PP Flute Board comes in a wide range of attractive colors and finishes, including both matte and glossy for excellent printability. It's reusable thanks to its superior hinge strength and stiffness, making it an economical choice. This versatile material is perfect for packaging a variety of products, from industrial goods to consumer items. This includes kits for electronics, tools, glassware, textiles, shoes, medical supplies, tile samples, and much more.

Divya PP Flute Board is a superior alternative to cardboard corrugated boxes. It's both tougher and lighter than wood, resulting in significant freight cost savings. Additionally, it offers excellent bursting and puncture resistance for reliable product protection. Being a thermoplastic material, PP Flute Board is waterproof, chemical-resistant, heat-resistant, and won't succumb to fungus or termites. It's also easy to work with - you can cut, bend, stitch, staple, print, and handle it with ease.

## SPECIFICATION

Polypropylene corrugated sheet made from prime virgin raw materials

## REGULAR RANGE

Thickness : 2 mm to 10 mm, 12 mm  
Width : 2440 mm or as request  
Colours : Yellow, White, Blue, Gray, Green, Red, Black, Orange and as per order

## APPLICATION AREA

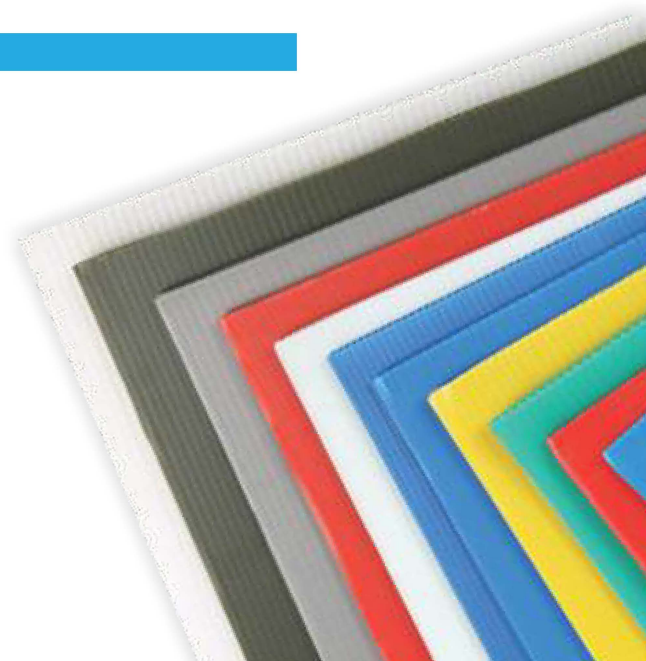

Advertising : Signage, POP, Hoarding, Display, Boards, Exhibition Stall.  
Packaging : Master Cartons, Packaging for Fruits, Vegetables, Glass, Delicate Items, Chinaware, Lab Ware, Auto Parts, Electrics & Electronics, Pharmaceuticals etc.  
Construction : Porta Cabins, Doors, Floorings, False Ceilings, Protective Liner for Wardrobe & Furniture Paneling  
Other : Lab Furniture, Cooling Towers, Pellets, Roofing for Green house, Novelties, Boards for Rural /Propaganda Vans.

## SPECIAL GRADES

- Anti Static : For sensitive electronic components.
- Conductive : For active electronic components.
- U.V. Stabilised : For prolonged outdoor application.
- Fire Retardant : For construction & interiors.

## FEATURES

- High Strength Rigidity
- Chemically Inert
- Attractive Colours
- Excellent Puncture Resistant
- Excellent Compression Strength
- Easily Fabricated as per customer requirement
- Weather Resistant
- Non Toxic
- Washable, Lightweight & Reusable

## PE STRETCH FILM

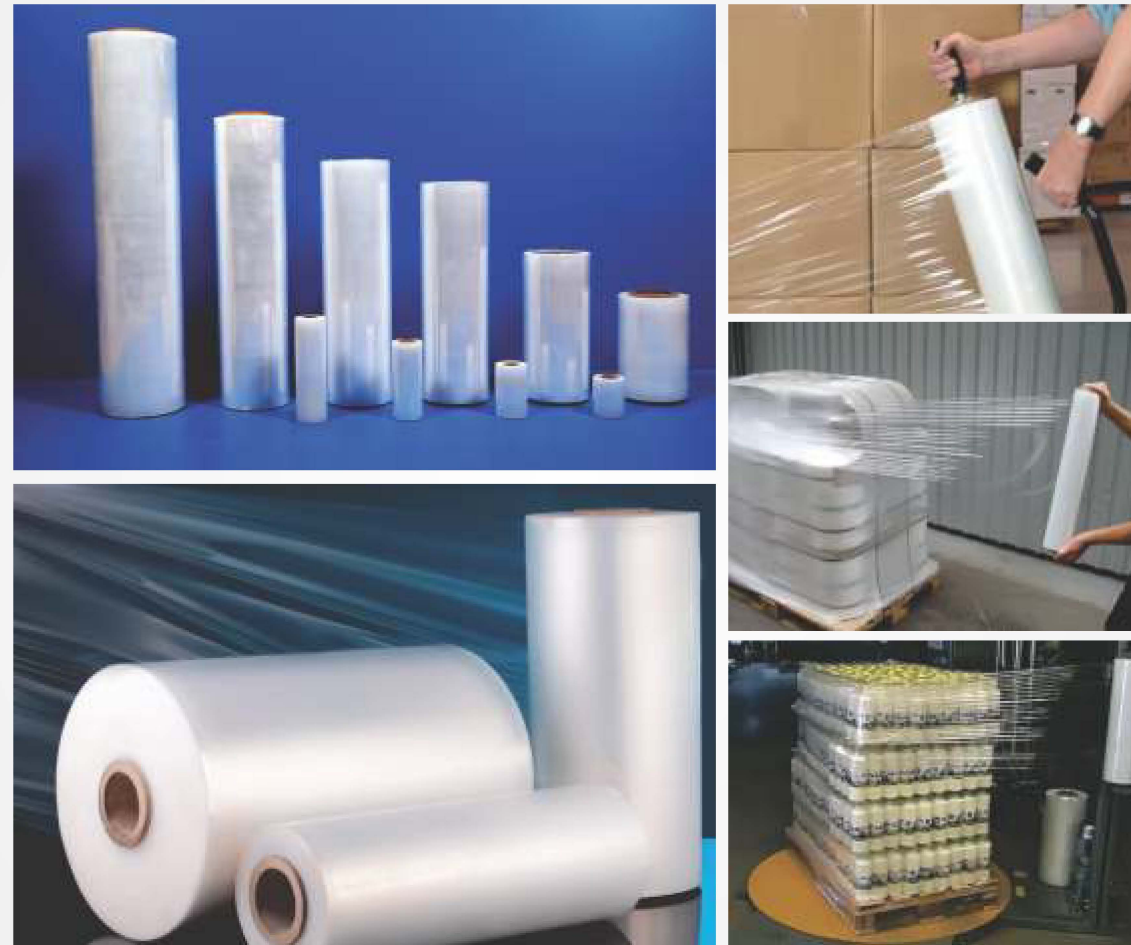

Cast Stretch Films protect your products from scratches, abrasions, stains, and other damage, ensuring they reach your customers in pristine condition. Our cast stretch films are suitable for a variety of loads and help secure your goods during transit.

Divya Cast Stretch Films are made with high-quality polymers to guarantee product stability and exceptional quality, ultimately delivering a better yield for your customers.

These films are 3-layer cast constructions, providing excellent properties like high puncture resistance, elongation, uniform thickness, strong dart impact strength, and good clarity.

# PE STRETCH FILM

## BENEFITS OF CAST STRETCH FILMS

- Protection from moisture, dirt & abrasion: Stretch film protects against these elements, safeguarding the goods it wraps.
- Reliable performances : The security associated and the holding performance, load retention and protection is readily evident.
- Scan-through optics : The superior appearance and clarity of cast stretch film enables codes to be quickly scanned and read while protecting labels and codes printed underneath the film.
- Ease of removal : Cast stretch film only clings to itself and not surface; it does not produce clinging noise, thus making its removal fast, safe, clean and easy.

**Machine Roll** : Superior load retention to reduce shifting and movement. Excellent puncture resistance with better protection and clearer film. Suitable for conventional and power pre stretch machine wrapping of pelletized goods

**Hand Roll** : Lightweight and easy to use. Manual wrapping of pelletized wood, bricks, paper and other industry products

## STRETCH FILM :MACHINE GRADE

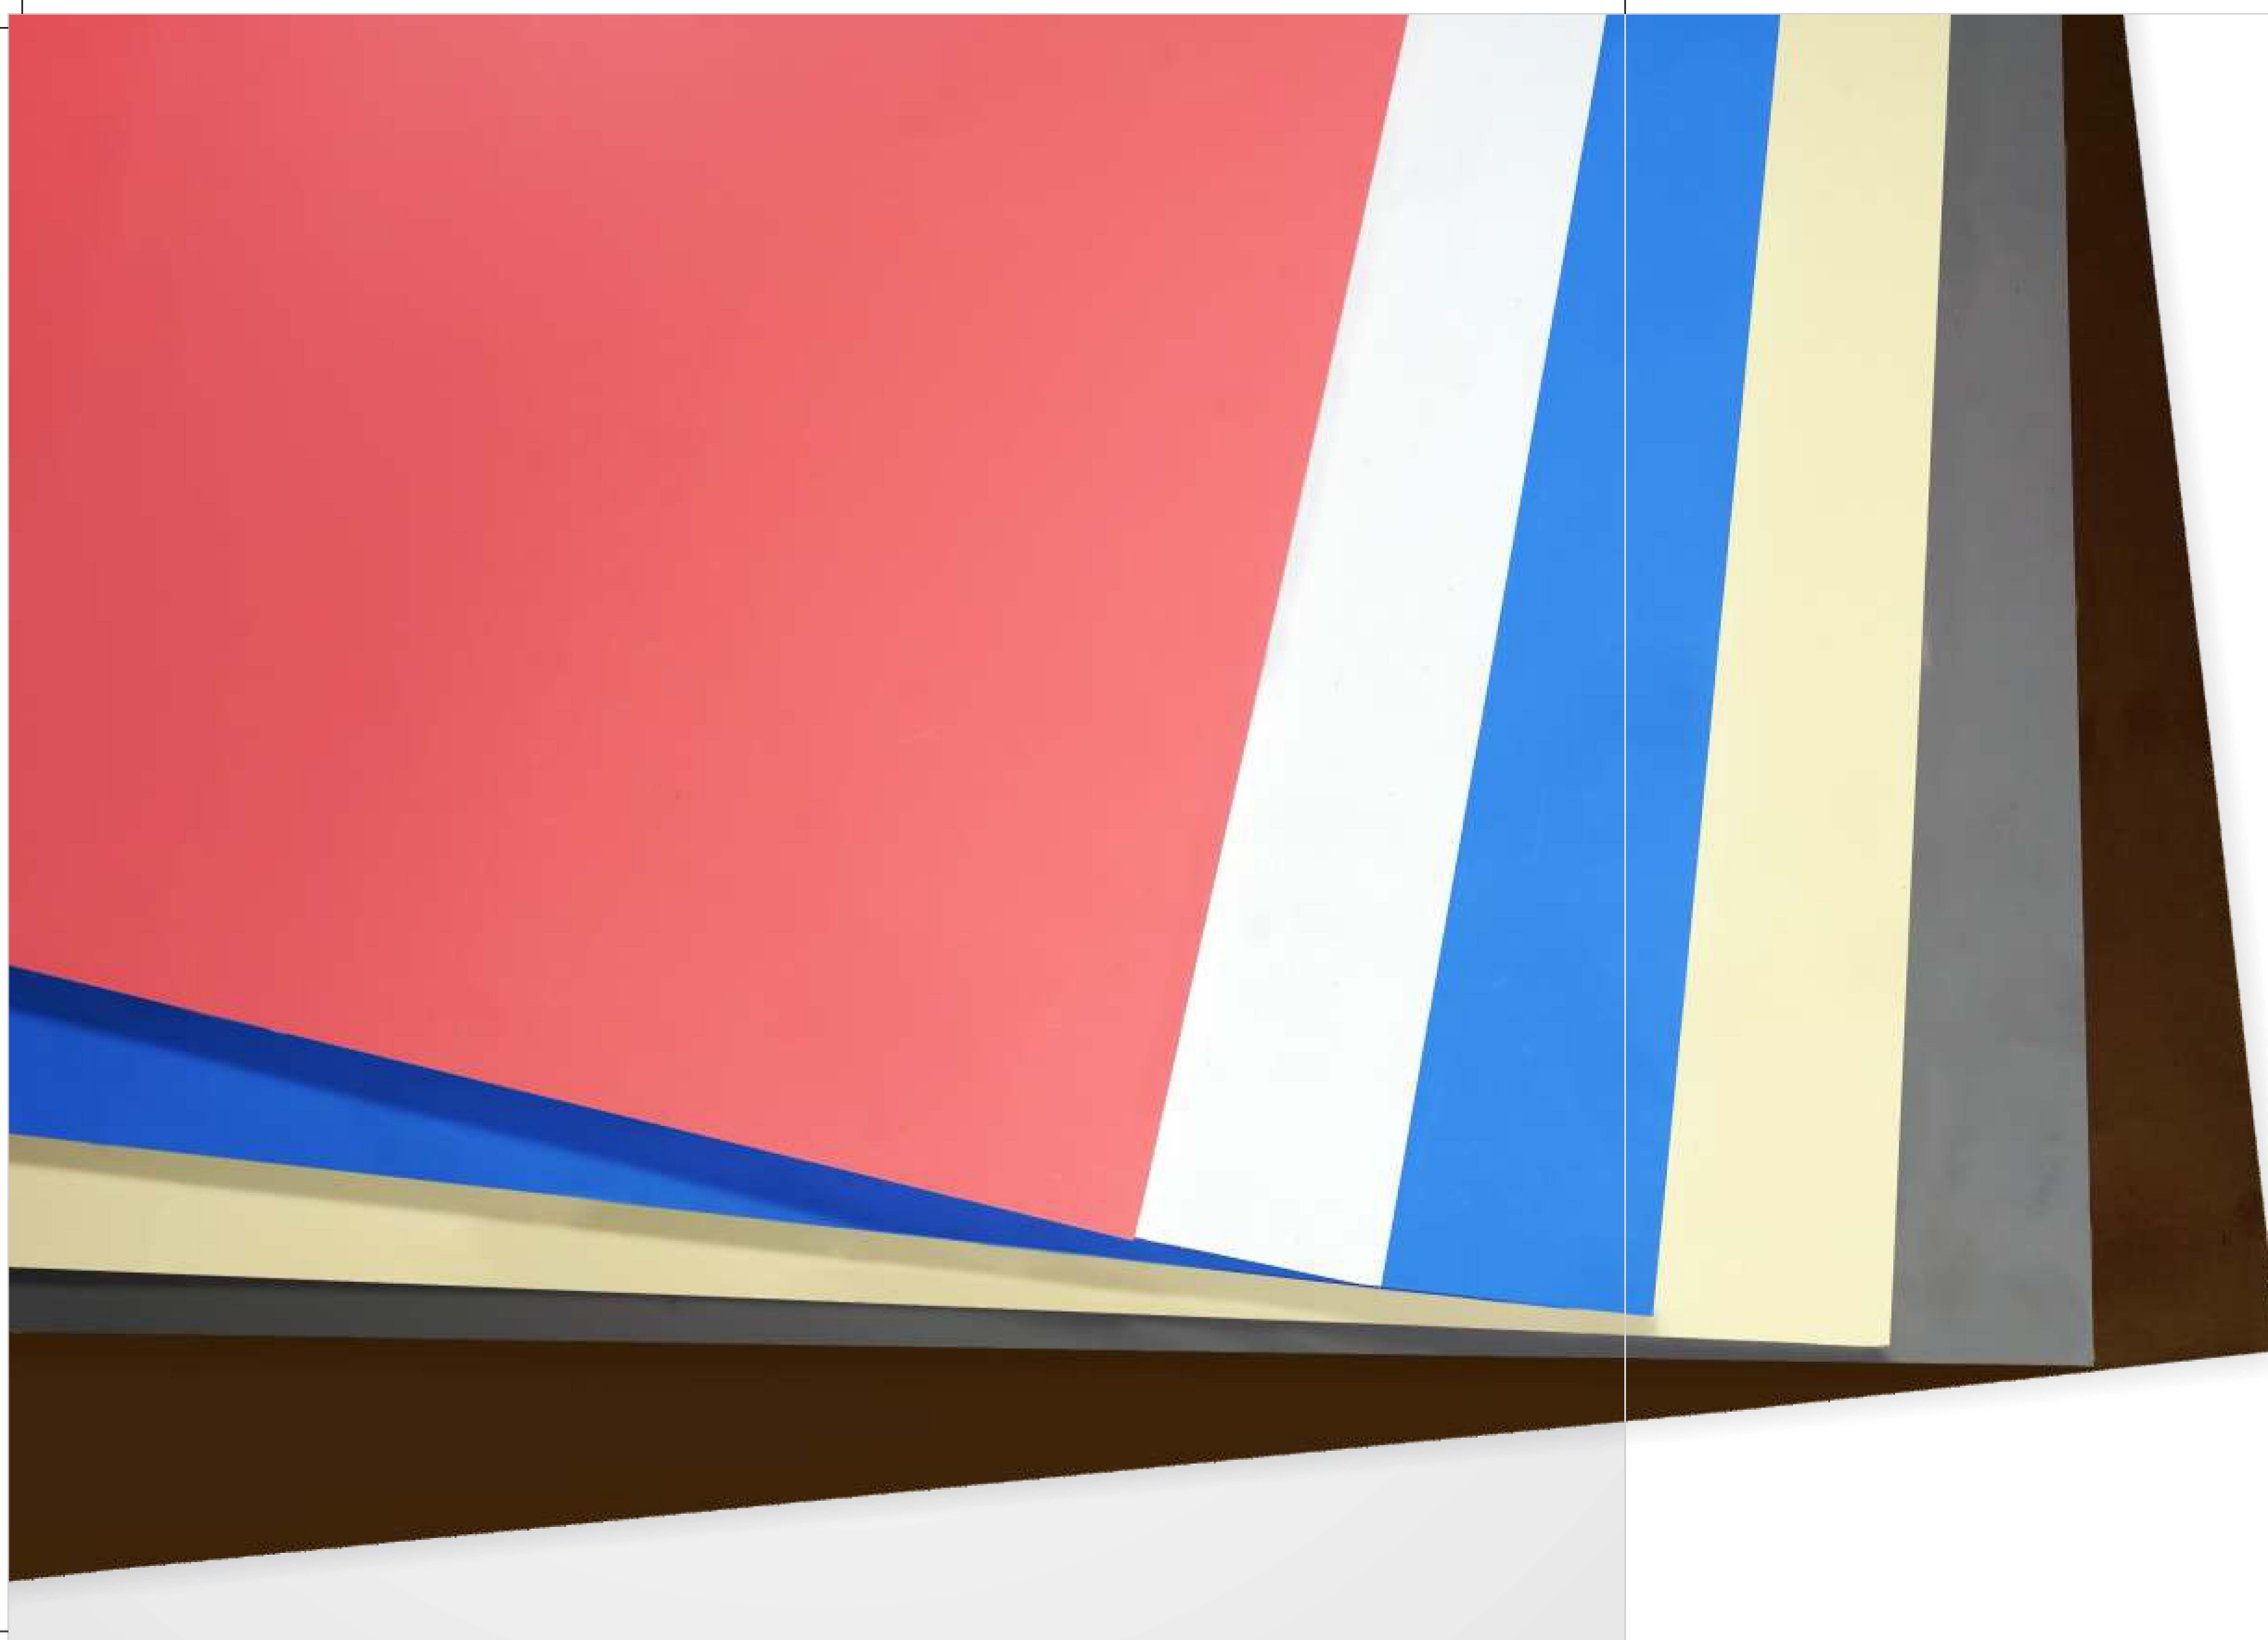

This is our best selling general purpose cast co-extruded stretch film for machine applications. This versatile, competitively priced stretch film's specifications provide for excellent performance when wrapping most loads. With stretch percentage between 250-300%, it provides for high levels of strength, puncture resistance and cling. Clear optics and quiet unwind make this film the top choice for the widest range of applications.

## ADVANTAGES OF STRETCH

- Made from high quality and high technology LLDPE Resins
- Due to stable and flat film with just 0.50 micron of variation in thickness, thinner films can be used to reduce cost per pallet.
- Identical Net Weight of all rolls so easy for stock taking and consumption calculation
- Offers Cost reduction possibilities due to lower grams per Sq. Mt.

## PVC FOAM BOARD

PVC Foam Board is man-made material whose main component is PVC. It has fine chemical stability, anti-corrosive and high intensity. It can be used a substitute of wood.

PVC Foam Board, is an extremely versatile material which is suitable for internal and some external applications. It is available in white, which is very popular in the international market, it is also available in matte and glossy finish in selected sizes. It has excellent UV resistance outdoors.

PVC Foam Board has a wide-range uses, specially for advertising uses as it is light weight, low cost, various colors and perfect show effect. It is also an ideal material for building and decoration, and other industry use.
